

Technical Exhibits THAT YOU CAN VISIT VIRTUALLY

December 6–10, 2021

SMARTY'S NOOK

Join Smarty and be amazed at the difference nuclear science and technology can do! Access education resources, information about past conferences, research articles, technology brochures and more!

FROM LABS TO RICHES

Become wealthy in research. Turn inventions into serious businesses. It is real, legal, rewarding, and sustainable.

RISE THROUGH NST

Resilient Industries and Sustainable Energy (RISE) through Nuclear Science and Technology (NST)

PAGSASAKAISA PARA SA MATATAGRIKULTURA

Let's explore and learn how much Nuclear Science and Technology is used for agricultural production and postharvest, food safety, authenticity, and security during public health emergency and other calamities.

JUST FOR THE HEALTH OF IT!

Did you know that cancer and other diseases can be diagnosed and treated with highly energetic forms of radiation? Find out what these medical procedures are and discover how nuclear science improves human health.

A JOURNEY FROM CRADLE TO GRAVE

Exploring the end-of-life cycle and safety of radioactive and nuclear waste from its generation to its final disposal

NATURE IS RADIOACTIVE!

Join us as we discover how we can use radioactivity and isotopes to understand and protect the earth and environment, reduce risks from natural hazards, and enjoy natural resources while staying sustainable and regenerative!
